

Faster procurements
Better outcomes

Canada's G2G brings
Canadian businesses
and government buyers
together in successful
commercial contracts

Canada

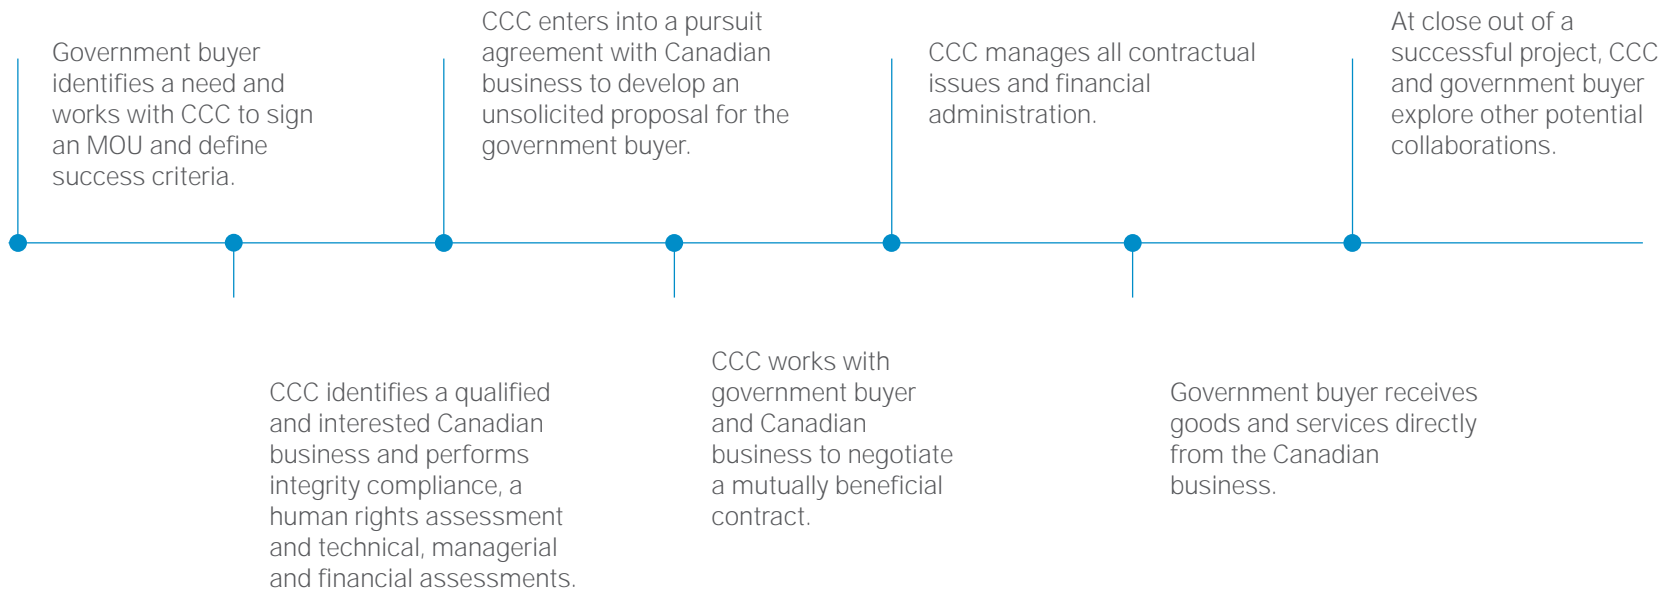

Because some procurements must be delivered successfully.
Guaranteed.

To help foreign government buyers meet their complex, politically sensitive, and critical procurement needs, CCC offers a proven government to government (G2G) service to purchase solutions from Canada. Canada's G2G, called the International Prime Contractor service, offers collaborative project development, international contracting expertise, and a deep knowledge of Canadian capabilities.

Canada's G2G builds trusted commercial relationships between government buyers and Canadian businesses, de-risks public procurement and delivers positive project outcomes.

We remove contract performance risk with our proven G2G contracting model, vendor due diligence, and government guarantee of contract performance.

We satisfy priority needs with unsolicited proposals from

for whom

the urgency of the acquisition, the risk of a failed tender or the risk of bribery and corruption are sufficient to make the case for an alternative approach to tendering the project competitively.

for whom

competitive tendering is not feasible for urgent or national security reasons and are willing to exercise the national security exception to competitive tendering.

that are looking to scale up or transform the delivery of public services and require expertise and technology unavailable in their domestic supply base.

We are Canada's government to government contracting agency

For over 75 years, governments around the world have entrusted us to reliably deliver made-in-Canada products and projects of public and national security importance.

Acting as prime contractor, we simplify and expedite acquisitions from Canadian suppliers across a wide range of sectors including aerospace, defence and security, information and communications technology, cleantech and green energy, and public infrastructure.
